

## Women's Health

---

The Women's Health Program provides programs and facilities to meet the unique needs of female veterans. Women who have served in the Armed Forces are eligible for a variety of veteran benefits, and Dallas VA Medical Center actively encourages women to utilize benefits they are due.

### Available Services

- Well Women's Clinic
- Gynecology Services
- Breast Exams and Mammography
- Reproductive Health Benefits (Maternity)
- Menopause Treatment

Mental Health services include treatment for post traumatic stress disorder (PTSD), and screening, counseling and treatment for military sexual trauma, sexual assault, and domestic violence. For services not available at VANTHCS, patients are referred to other VA facilities or community providers.
