Speakers Bureau

VA North Texas Health Care System has served Veterans since 1940. Our commitment to provide compassionate care, technical quality and advanced training in state-of-the-art facilities enable us to offer a broad range of topics to promote awareness of Veteran issues.

The Speakers Bureau is a tremendous resource for community organizations. Topics include those specifically related to VA as well as all other areas of health and wellness.

Requests should be received at least four weeks in advance. If your preferred topic is not listed, please contact us. We have subject matter experts in various areas of interest.

To request a speaker, contact the Public Affairs Office and provide:

- Topic
- Date
- Time
- Location
- Type of audience
- Expected attendance
- POC
