

Department of Veterans Affairs (VA) National Rules of Behavior**1. Background**

a. Section 5723(b)(12) of title 38, United States Code, requires the Assistant Secretary for Information and Technology to establish “VA National Rules of Behavior for appropriate use and protection of the information which is used to support Department’s missions and functions.” The Office of Management and Budget (OMB) Circular A-130, Appendix III, paragraph 3(a)(2)(a) requires that all Federal agencies promulgate rules of behavior that “clearly delineate responsibilities and expected behavior of all individuals with access” to the agencies’ information and information systems, as well as state clearly the “consequences of behavior not consistent” with the rules of behavior. **The National Rules of Behavior that begin on page G-3, are required to be used throughout the VA.**

b. Congress and OMB require the promulgation of national rules of behavior for two reasons. First, Congress and OMB recognize that knowledgeable users are the foundation of a successful security program. Users must understand that taking personal responsibility for the security of their computer and the VA data that it contains or that may be accessed through it, as well as the security and protection of VA information in any form (e.g. digital, paper), are essential aspects of their job. Second, individuals must be held accountable for their use of VA information and information systems.

c. VA must achieve the Gold Standard in data security which requires that VA information and information system users protect VA information and information systems, especially the personal data of veterans, their family members, and employees. Users must maintain a heightened and constant awareness of their responsibilities regarding the protection of VA information. The Golden Rule with respect to this aspect of an employee’s job is to treat the personal information of others the same as they would their own.

d. Since written guidance cannot cover every contingency, personnel are asked to go beyond the stated rules, using “due diligence” and highest ethical standards to guide their actions. Personnel must understand that these rules are based on Federal laws, regulations, and VA Directives.

2. Coverage

a. The attached VA National Rules of Behavior must be signed annually by all VA employees who are provided access to VA information or VA information systems. The term VA employees includes all individuals who are employees under title 5 or title 38, United States Code, as well as individuals whom the Department considers employees such as volunteers, without compensation employees, and students and other trainees. Directions for signing the rules of behavior by other individuals who have access to VA information or information systems, such as contractor employees, will be addressed in subsequent policy. VA employees must initial and date each page of the copy of the VA National Rules of Behavior; they must also provide the information requested on the last page, sign and date it.

b. The VA National Rules of Behavior address notice and consent issues identified by the Department of Justice and other sources. It also serves to clarify the roles of management

and system administrators, and serves to provide notice of what is considered acceptable use of all VA information and information systems, VA sensitive information, and behavior of VA users.

c. The VA National Rules of Behavior use the phrase “VA sensitive information”. This phrase is defined in VA Directive 6500, paragraph 5q. This definition covers all information as defined in 38 USC 5727(19), and in 38 USC 5727(23). The phrase “VA sensitive information” as used in the attached VA National Rules of Behavior means:

All Department data, on any storage media or in any form or format, which requires protection due to the risk of harm that could result from inadvertent or deliberate disclosure, alteration, or destruction of the information. The term includes information whose improper use or disclosure could adversely affect the ability of an agency to accomplish its mission, proprietary information, records about individuals requiring protection under various confidentiality provisions such as the Privacy Act and the HIPAA Privacy Rule, and information that can be withheld under the Freedom of Information Act. Examples of VA sensitive information include the following: individually-identifiable medical, benefits, and personnel information, financial, budgetary, research, quality assurance, confidential commercial, critical infrastructure, investigatory, and law enforcement information, information that is confidential and privileged in litigation such as information protected by the deliberative process privilege, attorney work-product privilege, and the attorney-client privilege, and other information which, if released, could result in violation of law or harm or unfairness to any individual or group, or could adversely affect the national interest or the conduct of federal programs.

d. The phrase “VA sensitive information” includes information entrusted to the Department.

3. Rules of Behavior

a. Immediately following this section is the VA approved National Rules of Behavior that all employees (as discussed in paragraph 2a of Appendix G) who are provided access to VA information and VA information systems are required to sign in order to obtain access to VA information and information systems.
